El Mundo Secreto de Bush (Cronica Actual) Eric Laurent

This up-to-the-minute expose provides a scrupulously researched and at times deeply alarming account of a president who risks permanently alienating America from the rest of the world. George W. Bush has established himself as one of the most powerful--and one of the most arrogant--of all American presidents. The sources of his power, which have remained shrouded in mystery since his disputed election, originate with fanatical ideologues, fundamentalist Christians, shady businessmen, and right-wing extremists to a degree that will surprise even the most hardened observer.
