### **Kurzbeschreibung**

Have you ever wondered about the basis of human emotion? EMOTION presents the most recent research in the area and provides you with in-depth coverage of how topics such as neuroscience, culture, and development relate to the study of emotion. With a student-friendly writing style, this psychology text reflects new thinking about the area of emotion and encourages you to think critically about this topic.

### **Synopsis**

Designed to provide a thorough survey of theory and research in the Psychology of emotion, this text features an interdisciplinary approach integrating evolutionary, biological, cultural, developmental, clinical, and social behavioral perspectives. Discussions in the text include strong emphasis on issues of measurement and research methodology, and the impact of different methodological choices on the interpretation of research findings. Chapters cover both general issues in the field of emotion and cross-disciplinary research on specific emotions. It can be used as the core text for a course exclusively on emotion, or in conjunction with a motivation text in a course emphasizing the latter topic.
