Kurzbeschreibung

In the beginning there was...a turtle.

Somewhere on the frontier between thought and reality exists the Discworld, a parallel time and place which might sound and smell very much like our own, but which looks completely different. Particularly as it's carried though space on the back of a giant turtle (sex unknown). It plays by different rules.

But then, some things are the same everywhere. The Disc's very existence is about to be threatened by a strange new blight: the world's first tourist, upon whose survival rests the peace and prosperity of the land. Unfortunately, the person charged with maintaining that survival in the face of robbers, mercenaries and, well, Death, is a spectacularly inept wizard... Amazon.de

The Colour of Magic is Terry Pratchett's maiden voyage through the bizarre land of Discworld. His entertaining and witty series has grown to more than 20 books, and this is where it all starts--with the tourist Twoflower and his hapless wizard guide, Rincewind ("All wizards get like that... it's the quicksilver fumes. Rots their brains. Mushrooms, too."). Pratchett spoofs fantasy clichés--and everything else he can think of--while marshalling a profusion of characters through a madcap adventure. *The Colour of Magic* is followed by *The Light Fantastic*. --Blaise Selby, Amazon.com Amazon.co.uk
